**DUAL STAGE REEDS**

**IMPROVED POWER**

**IMPROVED FUEL ECONOMY**

**IMPROVED STARTUPS & IDLE**

### **BOYESEN REEDS ARE NOT STRICTLY FOR RACING...**

Boyesen Reeds have been proven in thousands of hours of racing so you can rest assured that they will perform great in any outboard, no matter its horsepower or use.

### **IMPROVED STARTUPS AND IDLE...**

No more coughing, sputtering and dying. Boyesen Reeds smooth out the rough spots, the results, troll or operate at the engine speed you desire not the speed the engine demands. An added benefit to this increased smoothness is that vibration throughout the craft is reduced thereby extending the life of Engine Vibration Dampers and reducing stress on the Transom.

WHO WOULDN'T LIKE A SMOOTHER RUNNING BOAT?

### **IMPROVED FUEL ECONOMY...**

The patented two stage design of Boyesen Reeds makes them more efficient than ordinary reeds. Weather the application is a 9.9hp. out board on a Flats Boat twin 6 cylinders for offshore or any thing in between, reduced fuel costs and extended running time from the same fuel load is a benefit that all boaters will appreciate.

WHO WOULDN'T LIKE BETTER FUEL ECONOMY?

### **IMPROVED POWER AND RPM...**

Weather the need is to get skiers up fast or get to your favorite honey hole before the next guy Boyesen Reeds deliver more Torque and Horsepower. The result is better than crisp throttle response and improved hole shots. Boyesen reeds work more predictably at high RPM and typically deliver 1-300 more RPM!

WHO WOULDN'T LIKE INCREASED PERFORMANCE?
